

A Walk in the „Wall-Anlagen“ – the eldest park of Bremen.

This cache leads you to the „Bremer Wallanlagen“. You have to answer questions at every station to find the following waypoints and the final, in the end.

Have fun.

Four notes:

- 1.) I have left out the letters „l“ and „O“ to avoid them being mistaken as „1“ and „0“ – so please don't be surprised about that.
- 2.) If there is a letter like „Ä“, „Ö“ or „Ü“ to be found in the answers there are two options. If the **sum of the letters** is needed, they count as two letters (Ä = ae, Ö = oe, Ü = ue, ß = ss).
If the **amount of letters** is asked for, they count as one letter.

Example: Kangaroo (in German Känguruh) ...

- amount of letters = 8
- sum of letters = 106 (11+1+5+14...)

3.) Where there is no arithmetic operator, no calculation is needed, just use the specific value.

4.) **IMPORTANT:** Due to the final location this one is **NOT a night-cache**. Please leave your torch-light at home and only search for this cache, when daylight is still sufficient. One star of D-rating is for getting hold of the final without being noticed.
